

Shi Ke

Shanghai, China | Master's in Communication & Information Systems

Contact Information

- Email: shike021@icloud.com
- Phone: +86-186-0164-0519

Summary

Expertise in blockchain architecture and development, including scalable systems and privacy enhancements; system optimization and high-performance design; innovative blockchain solutions with patented technology; development of AI-driven customer service systems; contributions to RTC internet and edtech sectors; team leadership and DevOps practices; and proficiency in advanced programming, containerization, and orchestration technologies.

Work Experience

Mar 2021 - Present **Blockchain Technology Expert** | [Ant Group](#)

- Enhanced blockchain systems by designing and implementing off-chain networks, securing on-chain solutions, optimizing Layer 1, refactoring AntChain for Ethereum, and developing supply chain finance architectures to boost scalability, security, and efficiency.

Apr 2014 - Mar 2021 **Architecture Expert & Development Manager** | [Hujiang](#)

- Designed and led the development of CCtalk from inception, a pioneering live teaching platform with IM and streaming, implemented DevOps practices and cost governance, and migrated from self-built data centers to cloud infrastructure to enhance scalability and efficiency.

Apr 2010 - Apr 2014 **Senior Backend Development Supervisor** | [Giant Group](#)

- Architected and scaled the Dudu Voice platform, addressing system scalability, load balance, and disaster recovery challenges.

Apr 2008 - Apr 2010 **Backend Development Engineer** | [Tencent](#)

- Engineered the general API and Agent for the SQM system and contributed to the QoS system, enhancing service quality metrics.

Education

- Master's in Communication and Information Systems, Dalian Maritime University (2005-

2008)

- Bachelor's in Communication Engineering, Dalian Maritime University (2001-2005)

Honors & Engagements

- 3rd Prize, 2022 **Financial Cryptography Cup** for Distributed Secure Random Number Algorithm
- Secured more than 10 blockchain-related patents
- Speaker at **RTC2019** Conference
- Speaker at 2019 **China Education Technology Conference**
